Freelance development partner for agencies

I build the websites your agency designs.

You design and manage the client. I turn your designs into fast, accessible, SEO-ready websites in Next.js, React or custom WordPress, under your brand and to your deadlines.

8+ years building B2B marketing websites	**16+** company websites built and maintained	**3** SaaS products of my own, live	**100%** white-label, your brand only

What I build

Next.js & React sites

Marketing sites and web apps in JavaScript or TypeScript, on Vercel or your hosting.

Custom WordPress

Bespoke themes, Gutenberg blocks and ACF setups clients can edit safely. No page builders.

Headless WordPress

WordPress as the CMS with a Next.js front end, for editing comfort and speed.

Landing & campaign pages

Launch and rebrand pages built quickly from Figma, with motion and responsive detail.

Speed & technical SEO

Core Web Vitals, image and script optimisation, structured data, clean markup.

Integrations

HubSpot and Marketo forms, analytics, third-party APIs, plus Drupal and WordPress upkeep.

Stack

Next.js · React · TypeScript · JavaScript · Node.js · WordPress · PHP · ACF & Gutenberg · Drupal · Tailwind CSS · SCSS · HubSpot · Marketo · Supabase / PostgreSQL · Firebase · Git

Selected work

Marketing websites for software and industrial companies.

Built as part of agency teams, from design hand-off to launch and ongoing updates. Client names and examples are available on request.

IDENTITY VERIFICATION SAAS · US

Corporate marketing website

Custom WordPress theme and page templates, with Marketo forms for lead capture.

WordPress · PHP · SCSS · JavaScript · Marketo

DATA SECURITY PLATFORM · US

Enterprise B2B website

Template development and regular page builds for a large marketing team.

WordPress · SCSS · JavaScript

DIGITAL WATERMARKING TECH · US

Product and company site

Drupal build with HubSpot integration for forms and marketing tracking.

Drupal · SCSS · JavaScript · HubSpot

DATA PRIVACY SAAS · US

Marketing site with custom integration

WordPress build styled with Tailwind CSS, connected to a third-party system.

WordPress · PHP · Tailwind CSS · Integration

FRAUD PREVENTION SAAS · US

Corporate website

WordPress templates and ongoing development for product and campaign pages.

WordPress · SCSS · JavaScript

OBSERVABILITY SOFTWARE · US

Enterprise web pages

Front-end components built inside an Adobe Experience Manager setup.

AEM · SCSS · JavaScript

CONSTRUCTION ESTIMATING APP

Web application front end

React app with Redux state and a Firebase back end, built with Material UI.

React · Redux · Material UI · Firebase

INDUSTRIAL MANUFACTURERS · US

Product catalogue websites

Drupal sites for equipment makers and rental companies with large product ranges.

Drupal · SCSS · JavaScript

Products I built and run

Full products, from database to dashboard.

Alongside agency work I design, build and support my own software for small businesses in India. Proof I can own a project end to end, not just a page.

CLINIC MANAGEMENT

ClinicOs

Appointments, patient records, prescriptions and billing for clinics, with a login per clinic.

Next.js · TypeScript · Supabase

RENTAL MANAGEMENT

RentCorp

Tenants, rent collection, dues and reminders for PG, hostel and property owners.

Next.js · TypeScript · Supabase

CAFÉ & RESTAURANT POS

CafeCorp

Orders, billing, tables and daily sales reports for cafés and restaurants.

Next.js · TypeScript · Firebase

Plus five free online tools (rent receipt, GST invoice, salary slip, quotation maker, website cost calculator) at themanishchauhan.in/tools.

How we work together

01 — Brief
You send the designs, page list and deadline.

02 — Estimate
Scope, timeline and a fixed price within 1–2 working days.

03 — Build
Progress on a staging link as each template is ready.

04 — Review & QA
Browsers, devices, accessibility basics and speed.

05 — Handover
Code in your repo, notes for your team, support after launch.

Need an extra developer?

Remote from India, with good overlap with UK and European hours. Pricing on request, and happy to start with a small paid trial task.
